Frequently Asked Questions

Where can I find more information about the Smarter Balanced Assessment System? Information about Smarter Balanced Assessment System is available at www.smarterbalanced.org

Take the Test:

Gain familiarity with the types of questions and tools for students by taking a practice test: <http://www.smarterbalanced.org/assessments/practice-and-training-tests>

Important Information About Interim Assessments

Interim assessments may be scored by local teachers. This scoring is not subject to the rigorous controls used in summative assessment and local results may show some variations.

These results represent only one indicator of a student's performance. These results should be used along with other information, such as classwork and other tests when making educational decisions. Specific questions about individual student results should be directed to the student's teacher.

Interim assessments questions are not secure. Exposure to, and familiarity, with test questions may affect student performance and the accuracy of interim results.
